

CODE OF CONDUCT
Elementary

The Board of Education (“Board”) is committed to providing a safe and orderly school environment where students may receive and district personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parents and other visitors is essential to achieving this goal.

The district has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, identify the possible consequences of unacceptable conduct, and to ensure that discipline when necessary is administered promptly and fairly. To this end, the Board adopts this Code of Conduct (“Code”).

Unless otherwise indicated, all of the procedures and penalties contained in this Code apply to all students, school personnel, parents and other visitors when on school property or attending a school function.

EXPECTED BEHAVIOR IN SCHOOL

Our students are active participants in creating a pleasant, safe learning environment. Students are expected to demonstrate appropriate behaviors within the school environment including arrival and dismissal, classroom time, lunch/recess, class trips and after school activities. While the idea of “appropriate behaviors” may be clear to the adults involved, it may not be clear to all of our students. Staff and parents have the responsibility of acquainting students with school expectations and of dealing fairly with those students who do not conduct themselves properly. The code of conduct’s objective is always one of fostering a positive building climate in which children can safely attend and learn.

The following rules will apply to all students’ behavior and will be monitored by all “school adults.” These rules apply to all common areas of the building and grounds as well as on the bus and bus lines.

- Follow directions the first time they are given.
- Keep hands, feet, objects, and angry, unkind words to oneself.
- Use kind words and actions at all times.
- Always be in the proper place at the proper time.
- Use all materials, equipment and facilities properly. Students will be held responsible for damaging school property (e.g., furniture, books, the building, etc.).

- **Walk** in the halls, classrooms and lunchroom at all times.
- Line up and move through the school in a quiet and orderly manner
- Use inside voices inside the school
- Use only appropriate language
- Buying and selling of items on school premises is prohibited unless otherwise approved (e.g., school sponsored fund raisers, etc.).

FIGHTING

Students shall not fight or engage in any violent behavior or engage in any other behaviors that are disruptive or dangerous by actively trying to inflict bodily harm to each other by pushing, kicking, biting, hitting, pulling hair, or striking with a foreign object. When two students are actively fighting, both are subject to discipline. When one person initiates an act of aggression on another for no apparent reason and the second party does not respond in kind, only the aggressor will be disciplined.

BATHROOM BEHAVIOR

Students who do not behave appropriately in the bathroom will be subject to the consequences outlined in the Code of Conduct.

CONDUCT DURING LUNCH

Students' lunch/playtime period should be a pleasant and informal part of the school day. The following rules should help guide students to make appropriate decisions during lunch:

- The lunch aides should be given the same respect as would be given a teacher or principal.
- Students are to follow the directions of the lunch aides to facilitate movement through the All-Purpose Room, to the playground, and/or back to classrooms.
- Trips back to the classroom are strictly prohibited.
- Students are to line up in the hall and in the kitchen area in a quiet, orderly fashion.

- Students are to treat others with respect and kindness.
- Students are to raise their hands when needing assistance.

- Students are to keep their hands and feet to themselves.
- Students are not permitted to leave the table until granted permission by the cafeteria aide.
- Students are not to remove food from the cafeteria.
- Students are to clean up their trash and dispose of it.
- Students are to move through the hallway and to recess in a quiet, orderly fashion.

PLAYGROUND RULES

The main objective for recess is to provide an opportunity for children to learn to play in a safe, cooperative and non-aggressive manner. Students have a right to a safe playground and a responsibility to behave in a manner that will not endanger other children or themselves. The following playground rules are designed to ensure a safe and orderly play environment.

- No bats, hard balls, footballs or Frisbees are permitted.
- Play equipment should be used in an appropriate manner and games should be played in a sportsman-like way.
- Running is limited to organized games only.

- No food, candy or gum allowed on playground.
- Children will keep hands and feet to themselves, and not hit, kick or push others.
- Inappropriate language or disrespectful language is not acceptable.
- Proper footwear is required.
- Students will walk quietly and quickly to their lines when called by their lunch aide.
- Equipment from home, such as baseballs, bats and soccer balls, is not to be brought to school.
- Aggressive play is not permitted. Games of tag, tackle football and similar contact sports are not permitted.

CLASSROOM RECESS

- There is no running or aggressive play allowed indoors.

BUS RULES

Students who endanger their safety or the safety of others are subject to losing their bus riding privileges for a period of time, to be determined by school administration.

Parents are responsible for their children at the bus stop. Bus drivers may issue bus referrals to school administrators based on inappropriate student behavior observed at bus stops and administrators will investigate and discipline accordingly. In addition, behavior not directly observed at bus stops, but reported and confirmed by witnesses, may be acted upon.

The children will be expected to:

- Wait at the assigned bus stop in an orderly fashion, without running out into the street.
- Wait until the bus comes to a full stop before getting on or off.

- Standing or kneeling on seats
- Standing or walking around the bus
- Refusing to let anyone sit beside you
- Sticking arms, hands or head out of the bus window
- Pushing, hitting, tripping, wrestling or fighting
- Boisterous conduct (i.e. yelling, screaming)
- Foul language

Failure to follow bus rules may result in loss of bus privileges.

If rules are not followed, the students will be reported to the principal. Teachers who chaperone trips will have the same authority and responsibilities as they have in their classrooms. Students are expected to obey all adults who are chaperoning a trip.

STUDENT TRAFFIC

Running in the hallways is not permitted. When walking in the hallways, classes and individual students shall travel in a quiet, orderly fashion on the right side of the hallway, with hands by their sides, respecting bulletin boards and displays. Running or jumping is prohibited.

Electronic devices such as cellphones, video games, iPods, iPads, etc. or toys may not be brought into school unless requested by a teacher for a specific purpose. Items such as these will be confiscated and parents will be required to pick them up.

STUDENT MANAGEMENT

Whenever possible, infractions are to be handled individually to avoid disciplining the group for the misbehavior of one or two students.

In the event a child is disrespectful toward an adult or fellow student(s) or does not follow school rules, the lunch aide or teacher on duty may assign that student to a time out and bring the incident to the attention of the classroom teacher.

A student whose behavior creates a serious problem in the classroom should be sent to the main office. When a student is sent to the office, a description of the student's behavior should be reported to the office immediately.

DRESS

Students should dress appropriately for school activities, and should be assisted in making choices regarding appropriate dress with the help of their parents. Some items of clothing are more suited for home play activities rather than school situations.

Articles of clothing that are deemed objectionable in style, wording, etc. by the school staff will be replaced by more suitable clothing. Parents will be contacted in this situation to assist in resolving the problem.

Parents will be notified and asked to bring appropriate clothing if their child/children are in violation of any of the following guidelines:

- No see-through clothing is permitted.
- Clothing should be the appropriate length.
- Clothing should be size and seasonally appropriate.

Shirts

- Shirts will not be worn that display or promote chemical substance abuse, alcohol, tobacco, heavy metal or satanic symbols or representations, or inappropriate or offensive language.

- Hats are not to be worn inside.

CONSEQUENCES FOR INAPPROPRIATE BEHAVIOR

When determining a consequence, consideration will be given to:

- Making a connection to the behavior being corrected.
- Involving the student in determining and/or understanding the consequence.
- Alerting the child’s teacher and parent when necessary.

Consequences may include:

- Warning

- Parent contact/conferencing
- Removal of student from the instructional setting

For severe acts of disruption and/or violence, the school has adopted an Immediate Intervention approach. This means that for:

In the event that discipline results in the student being removed from school for a period of time, appropriate alternate instruction will be provided.

Infractions by students with disabilities will be subject to the Code as well as treated in accordance with the law. This code is to be used as a guideline for administrators to determine appropriate consequences based upon individual circumstances.

The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
 - a. The Board, the District (BOCES) Superintendent of Schools or a Building Principal delegated the authority to suspend students may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - b. The Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the Superintendent determines that

the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.

- c. The Superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
 - d. The Superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee on Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student possesses or carries a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.
 - (1) "Weapon" means the same as "dangerous weapon" under 18 U.S.C. §930(g)(w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocket knife with a blade of less than 2 ½ inches in length."
 - (2) "Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
 - (3) "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
3. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

B. CHANGE OF PLACEMENT RULE

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - a. for more than 10 consecutive school days; or
 - b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

C. SPECIAL RULES REGARDING THE SUSPENSION OR REMOVAL OF STUDENTS WITH DISABILITIES

1. The district's Committee on Special Education shall:
 - a. conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

- b. conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.
- 2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.
 - a. The Superintendent, Building Principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
 - b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:

- (1) conducted an individual evaluation and determined that the student is not a student with a disability, or
- (2) determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

3. The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement.

The procedural safeguards notice prescribed by the Commissioner of Education shall accompany the notice of disciplinary removal.

4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Regulations of the Commissioner of Education incorporated into this policy.

6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Regulations of the Commissioner of Education incorporated into this policy.

D. EXPEDITED DUE PROCESS HEARINGS

1. An expedited due process hearing shall be conducted in the manner specified by the Regulations of the Commissioner of Education incorporated into this policy, if:
 - a. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
 - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - (1) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the

student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.

- (2) If school personnel propose to change the student's placement after expiration of an IAES placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

E. REFERRAL TO LAW ENFORCEMENT AND JUDICIAL AUTHORITIES

In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.
